

PAO ARCHITECTURE SUMMERSCHOOL 2011

UNDER ONE ROOF: A THOUSAND IDEAS

Titled UNDER ONE ROOF: A THOUSAND IDEAS finally the concept and programme for our 2011 PAO Summerschool got decided. The workshop will happen - as in the previous years - in the Romanian mountain village of Potoc, near Timisoara city. The general idea is to rework the old school building in Potoc, and to set-up a kind of Micro-Bauhaus in this rural setting. The large old school provides a perfect location for a variety of projects on all scales: from artistic work (sculpting, drawing, crafting) to architectural construction (house-in-house).

TIME The workshop will happen in the last two weeks of August and beginning of September. Exactly: August 22nd through September 4th. Before the workshop start, a weekend programme in the nearby city of Timisoara is prepared. A detailed workshop schedule is to be issued in the next weeks.

REGISTRATION Deadline for registration and payment (see below) will be July 31st. The number of participants is limited to ~20. The people who register first will be enrolled.

FEES Participation fees will be 150 € for students, and 250 € for professionals, covering the full course of two weeks. The fees include food, field trips, and accomodation (students: tents; professionals: dormitory, or guest house).

CRITERIA There are no specific criteria for participation. Yet, participants shall have high personal motivation, a natural creative drive & some positive craziness. Before all, the ability to be productive in an international teams is essential. As PAO is a genuine "hands-on" workshop, a certain physical robustness is necessary too.

ARRIVAL Meeting place will be Timisoara city on the 21st of August. From Timisoara a pickup trip is organised to Potoc village. If you arrive by airplane, the nearest airport is Timisoara/ Romania, however Belgrade/ Serbia is quite close too (2h Bus to Timisoara). Flying to Budapest / Hungary is also possible (4 hours trainride to Timisoara).

FURTHER INFORMATION Anyone who is interested in the workshop, or wants to receive detailed information, shall email to paoproject@gmail.com or visit the website www.pao-project.org which will be updated in the next days with new information.
